STUDY SMARTER

Study less. Remember more.

The two methods toppers use, backed by memory research.

THE PROBLEM

Re-reading feels like studying

It feels easy because the page looks familiar. But familiar isn't the same as remembered.

METHOD 1

01

Active recall

Close the book. Write down everything you remember. Then check what you missed. That struggle is what makes it stick.

METHOD 2

02

Spaced repetition

Revise the same topic again after a gap, just as you start forgetting it.

A SIMPLE SCHEDULE

Day 1 → Day 3 → Day 7 → Day 14

BONUS

03

Teach it in 2 minutes

Explain the topic to a friend, or to your phone camera.
Where you get stuck is what to revise.

TRY THIS TODAY

Your 30 minute session

5 min: read one topic. 10 min: write what you remember. 10 min: practice questions. 5 min: fix the gaps.

KRISH AI

20 practice questions, on any chapter.

Ask Krish AI. It gives answers too, so you can check yourself.
